

I would like to serve on the Board of Directors because I love what Breadroot stands for and the people who work and shop there. I am passionate about the environment, so I want to support Breadroot in continuing to support organic, sustainable, and local agriculture. As an engineering consultant for water projects, I have experience in writing reports, applying for funding, and regulatory compliance.

As a former Breadroot employee, I have an appreciation for how the store operates on a day-to-day basis. I started shopping at Breadroot in 2019, and in that short time, I have seen the store grow in so many ways. I want to contribute to and continue to see that growth, especially as Rapid City continues to develop. Breadroot has something to offer everyone, and I want more people to be aware of it and enjoy the excellent products and supportive community that I have over the years.
